PROTOCOL FOR PROTECTION OF HISTORIC FINISHES DURING LOAD-IN & LOAD OUT

The AWMA is listed in the National Register of Historic Places and recently completed an exhaustive two-year restoration. In order to protect the newly restored and historic finishes of the AWMA national landmark, Client vendors are required to make this vital point known to their delivery crews for every event, so that they take extreme precautions during all load-in and load-out activities. Vendors, in coordination with and at the direction of Ridgewells, are required to install all the necessary protections to finishes and follow the load-in and load-out protocols as described in this section.

Protection of all interior and exterior stairs, ramps, doors, walls, columns, floors, and finishes must be in place before any vendor supplied items enter the building. Nothing can ever touch the new wood or marble floors without Masonite floor protection in place underneath any vendor supplied item. Masonite floor protection must be carried and never dragged across the floor. Dragging will scratch the floor. While setting up and breaking down, vendor must do so on a Masonite staging area and not on an unprotected floor surface. All items must have rubber feet or mats underneath them and be installed prior to entering the AWMA. All items must be kept at least one foot away from all walls, columns, doors, finishes. Moving any heavy items or scissor lifts may only be done after approval from and under the supervision of Ridgewells.

Failure to follow these explicit directions will for certain cause damage to the AWMA finishes and will result in the Client being billed the full cost to repair any damage caused by their vendor's negligence and may result in a termination of the vendor's status as a Preferred Vendor for Ridgewells and the AWMA. By signing this Contract the Client certifies that they have carefully read, fully understand, and will abide by the all the AWMA and Ridgewells' terms, conditions, and protocols for delivery load-in and load-out, FPS Mobile Screening, and Protection of Historical Finishes, which are subject to change.

SCHEDULES & ENTRY POINTS

Client shall submit a preliminary load-in and load-out floorplan and schedule thirty (30) days prior to the event. A finalized load-in and load-out plan and schedule must be provided to Ridgewells ten (10) business days prior to the event date. Schedules should denote all proposed access points to the building (i.e., catering entrance, VIP entrance, and guest entrance). Ridgewells will augment access points if needed based on building capacity requirements. Front entrances will be closed and locked fifteen (15) minutes after the end of the event. If the Client would like delayed closing of the front doors, a request should be included on the schedule. No door shall be opened without a security officer present.

VIP REQUIREMENTS

Failure to do so will result in forfeiture of Client's security deposit plus any additional cleaning fees. Only votive candles in enclosed votive holders are allowed in the building.
